Trusted beneath the nation’s landmarks since 1983

M/S Bulbul Enterprise is a specialist substructure contractor led by proprietor Md. Bulbul Ahmed. We deliver piling, steel shoring and deep-basement excavation for Bangladesh’s premier developers, hotels, hospitals, universities and industrial groups: the work every landmark building stands on.

Our story

Founded in 1983, the company has worked continuously for 43 years and completed more than 500 projects. Our earliest surviving work order, from 1998, is for Borak Real Estate.
A quarter of a century later the same group entrusted us with Unique Acropolis, home of Hotel Taj & Vivanta, and the eight-level basement of Unique South Park.

Why clients choose us

Four decades of technical authority

Since 1983 we have worked through every stage of Dhaka's high-rise growth, and that experience shows in how we plan, sequence and execute every basement.

Value beyond the lowest bid

Our rates reflect owned machinery, experienced crews, engineer-approved methods and strict site safety. On a deep basement, a delay or failure costs far more than any saving on a quote, which is why leading developers keep choosing us.

Our own fleet and steel

We own and operate one of Bangladesh's largest fleets of heavy foundation machinery and keep our own stock of I-joists, H-beams and sheet piles, with anything else a job needs sourced by us. No waiting on third parties.

Chosen again by elite names

Shanta Holdings has awarded us 22 projects since 2007, the Unique Group has returned to us since 1998, and Grameen Telecom Trust came back after its landmark 2024 award. City Bank, Square, BSRM and AIUB complete the record.

Our mission

To deliver the substructure that Bangladesh’s most ambitious buildings stand on: built exactly to the approved design, executed safely and handed over on schedule.

Our vision

To be the first call for the country’s premier developments: the foundation partner that developers, hotels, hospitals and institutions trust with their most demanding sites.

Four decades of foundations, 1983 to 2026

Key moments from the work orders and letters of award in our files.

1983 — **Company established**
M/S Bulbul Enterprise starts work in Dhaka as a foundation and earthworks contractor.

1998 — **Earliest surviving work order**
Borak Real Estate, Gulshan: the start of a relationship that leads to Unique Acropolis, Hotel Taj & Vivanta and Unique South Park.

2007 — **First Shanta project**
SPL Digonta, Paribag: the first of 22 Shanta projects, including The Pinnacle Tower and The Vantage.

2010–12 — **Deep basements become routine**
Excavations to 32 ft across Gulshan, Banani, Bashundhara and Dhanmondi for Navana, Britannia, Bay Developments and Space Zero.

2014 — **Unique Hotel & Resorts**
A decade of structural steel, shoring and crane works begins for the owners of The Westin Dhaka.

2016–17 — **Campus and headquarters**
AIUB's permanent campus at Kuril and the Square Toiletries headquarters in Uttara, built over three basements.

2018 — **Agrani Bank Bhaban-2**
Vertical steel structure bracing through 22 floors of the state-owned bank's building in Motijheel.

2020 — **The Pinnacle Tower**
Letter of award from Shanta Holdings for excavation and the complete basement shoring system in Tejgaon.

2023 — **TA Tower, Malibagh**
Excavation and steel shoring for Tropical Homes, followed by Tropical Electra Tower and Tropical Hannan Tower in 2025.

2024 — **Largest award in our history**
Grameen Telecom Trust's Samajik Hospital & Medical College at Diabari. Emnipur Tower excavation reaches 75 ft.

2026 — **Industry and healthcare**
A complete factory substructure with 4.9 km of bored piles for Apex Fashion Wear, and the SHMCHRI utility building.

By the numbers

Company totals as recorded by M/S Bulbul Enterprise.

43

Years in business, since 1983

500+

Projects completed to date

120+

Major projects listed in this portfolio

20+

Projects for one client, Shanta Holdings

BDT 25 Cr+

Single-contract capability

8

Basement levels, deepest executed, Unique South Park

75 ft

Deepest excavation on record, Emnipur Tower

90+

Developers, institutions, missions and industrial clients

One contractor for the complete substructure

Every stage below ground, from clearing the plot to the foundation, under one contract, with our own machines and our own steel.

Demolition and site preparation

Taking down existing buildings and clearing the plot so foundation work starts on schedule.

Shore piling

Cast-in-situ shore piles, 400–600 mm, that hold back soil and groundwater around deep basements.

King-post piling

King posts driven and cast to carry multi-tier bracing, then broken down cleanly as the slabs take over.

Bored and cast-in-situ piling

Load-bearing bored piles with rebar cages and tremie concrete, 16 to 24 inches, for towers and plants.

Sheet piling

Supply, driving and extraction of interlocking steel sheet piles for temporary retaining works.

Pile load testing

Static and dynamic load tests to BNBC-2020 and ASTM, arranged and reported for the client's engineer.

Deep basement excavation

Mechanical excavation and disposal to 75 ft, sequenced with piling and bracing to keep the pit stable.

Dewatering

Pumping and water control that keep the excavation dry and the retaining system stable.

Steel bracing and shoring

I-joist and H-beam struts and walers up to 350 × 350 mm, installed tier by tier and removed after casting.

Foundation RCC works

Tie beams, reinforcement, shuttering and lean concrete that make the foundation ready for the structure above.

Earthwork, filling and levelling

Cutting, sand filling, dressing and levelling by excavator and bulldozer, from house plots to factory sites.

Heavy machinery and cranes

Our own excavators, sheet-pile drivers, cranes and transport, plus any other plant a job needs, including tower-crane relocation.

Bangladesh's premier developments rely on us

Hotels, embassies, hospitals, banks, towers and industry: sites where there is no margin for error.

Hotels and hospitality

Landmark hotels, hospitals and missions

Some of the most closely watched building sites in the country.

Depth
58 ft
5 basement levels

Samajik Hospital & Medical College

2024–26

Grameen Telecom Trust, Diabari, Uttara

The largest single contract in our history: bracing, deep excavation and king-post pile breaking for a hospital and medical college, followed by its utility building.

Basements
8
Levels at Unique South Park

Unique Acropolis & Unique South Park

2014–24

Borak Real Estate & Unique Hotel & Resorts, Gulshan

Ten years on two of Gulshan's most prominent developments: the deepest basement in our records, shuttering to level 22 at Acropolis, home of Hotel Taj & Vivanta, and tower-crane relocation.

Client since
2014
Unique Hotel & Resorts PLC

The Westin Dhaka

Unique Hotel & Resorts PLC, Gulshan-2

Specialized foundation and structural steel works for the owners of The Westin Dhaka, a client relationship that has now run for more than a decade.

Hospitality
5-star
International hotel brand

Le Méridien Dhaka

Five-star hotel, Airport Road, Dhaka

Specialized foundation works for one of Dhaka's leading international five-star hotels, on the capital's main airport corridor.

Missions
4
U.S., British, Japanese, Thai

U.S. Embassy premises and diplomatic missions

U.S. Embassy, British High Commission, Embassy of Japan, Royal Thai Embassy

Specialized foundation and site works for diplomatic missions in Dhaka, where access, security and documentation requirements are among the strictest in the country.

Iconic towers

Commercial and residential towers that define their neighbourhoods, from Gulshan to Motijheel.

Awarded
2020
Letter of award

The Pinnacle Tower

2020–21

Shanta Holdings, Tejgaon

Excavation and the complete basement shoring system (supply, fitting, fixing and removal), with a follow-on order for structural steel and plate supply.

Awarded
2023
Excavation and shoring

TA Tower

2023

Tropical Homes Ltd, Malibagh

Basement excavation and steel shoring for one of Tropical Homes' flagship towers, a relationship that continued with Tropical Electra Tower and Tropical Hannan Tower.

Depth
75 ft
Deepest excavation on record

Emnipur Tower

2024

Next Spaces Ltd, Tejgaon

1.43 million cubic feet excavated and removed to 75 ft, against a daily disposal target of up to 1,000 cubic metres.

Basements
6
Levels shored and excavated

Desh Tower

2024

Desh Entertainment Ltd, Tejgaon

Supply, fabrication and installation of the I/H-beam bracing that protects the shore piles of a six-level basement, together with the full earth excavation.

Floors
22
Of vertical steel bracing

Agrani Bank Bhaban-2

2018

Desh Unnayan–The Builder's GBB (JV), Motijheel

Galvanised vertical steel structure bracing from the third basement to level 20 of the state-owned bank's building in Motijheel.

Institutions, industry and long-term partners

A corporate headquarters, a university, a national hospital, heavy industry, and a developer that keeps coming back.

Basements
3
Under 13 storeys

Square Toiletries headquarters

2017

Bengal Development Corporation, Uttara

Earth excavation plus supply, installation and removal of the steel bracing tier that supports the shore piles.

Campus
AIUB
Permanent campus, Kuril

American International University-Bangladesh

2016

MS Construction, Kuril

Foundation and basement excavation with fitting, fixing and removal of I- and H-section joist bracing.

Hospital
NINS
Expansion, Agargaon

National Institute of Neurosciences & Hospital

2019

G.K.B & Company (Pvt.) Ltd

I-beam joist driving and bracing for the expansion of the national neurosciences hospital.

Piling
4.9 km
Of bored piles at Apex

Heavy industry

2017–26

BSRM, Apex, DBL Ceramics, Aqua Refinery, Aramit

Basement shoring at BSRM's Mirsarai steel mill, a complete factory substructure with load testing for Apex, press-foundation palisading at DBL Ceramics and river-bank shoring at Aqua Refinery.

Projects
22
For Shanta since 2007

Shanta Holdings

2007–21

Gulshan, Banani, Tejgaon, Uttara, Dhanmondi

The Pinnacle Tower, The Vantage, AURA, MAAYA, Virtue, The Sanctum, Shanta Splendor, WAADA, Nawratan, The Mirzam, Chisty's Yacht and more.

Developers and contractors who hire us

Most of the names below have awarded us more than one project.

Developers

Abed Holdings	Address Developments	AG Property Developments	Assign Holdings
